

**W** WHARFEDALE

Diamond 11

**Diamond 11.0**

**MSRP** €199  
**Finishes:** Black and White currently  
Rosewood and Walnut tbc

**Information**  
The entry level D11 where price is the major factor. Straight edge cabinet but uses the same driver and tweeter technology as further up the range. A remarkable sounding speaker for the price.

**Diamond 11.1**

**MSRP** €349  
**Finishes:** Black and White currently  
Rosewood and Walnut tbc

**Information**  
The 11.1 is the superstar of the range. This product will go in for multiple reviews and whilst nothing can be taken for granted, there are already rumours of 5 stars and possibly even product of the year. Curved cabinet design, slot loaded bass port, WFR vented tweeter and driver technology normally only seen in speakers twice this price.

**Diamond 11.2**

**MSRP** €499  
**Finishes:** Black and White currently  
Rosewood and Walnut tbc

**Information**  
The 11.2 packs all the technology and expertise of the 11.1 but with a bigger bass driver (150mm), bigger cabinet, increased power handling, higher sensitivity and a wider frequency response, offering the perfect sell up option for the customer who needs shelf speakers with a bit more grunt.

**Diamond 11.3**

MSRP €799  
Finishes: Black and White currently  
Rosewood and Walnut tbc

Information  
The entry level floor stander, sleek and elegant with 2 130mm bass/mid drivers at an outstanding price point. This will be the volume mover in the floor standing range. Produces astonishing detail and with the slot loaded bass port and bigger cabinet volume, packs plenty of punch.

**Diamond 11.4**

MSRP €999  
Finishes: Black and White currently  
Rosewood and Walnut tbc

Information  
Where the 11.3 is really a 2½ way speaker, the 11.4 is a genuine 4 driver 3 way with 2 x 150mm bass drivers and 100mm mid to add to the 25mm tweeter. It handles up to 175W of power and has high sensitivity and wide frequency response to deliver incredible detail as well as huge punch.

**Diamond 11.5**

MSRP €1299  
Finishes: Black and White currently  
Rosewood and Walnut tbc

Information  
The 11.5 is big. Very big! It features 2 x 200mm bass drivers and houses a bass cabinet volume of an incredible 63L. It's not all about the bass though. The technology in the drivers which features throughout the range ensures that the musicality is never lost. But when biggest is best, this is your speaker.

Diamond 11.CC

MSRP €219  
Finishes: Black and White currently  
Rosewood and Walnut tbc

Information  
Home cinema centre speaker, featuring 2 x  
130mm mid drivers and a 25mm WFR vented  
tweeter.

The Diamond 11 Family

Diamond 11.CS

MSRP €349  
Finishes: Black and White currently  
Rosewood and Walnut tbc

Information  
Home cinema centre speaker, featuring 2 x  
150mm mid drivers and a 25mm WFR vented  
tweeter. Higher power handling (150W)

# W H A R F E D A L E

The bass and midrange drivers use a basket with a network of ribs that maintain its rigidity, while leaving a large open area behind the cone. The rigidity improves transient impact while the big open area reduces early reflections to the cone. The Diamond 11 Series speakers also feature massive magnet designs to both raise sensitivity and ensure absolute control of cone movement over lower bass frequencies. The use of a specially shaped single-forged pole piece with copper cap controls the magnetic flux and ensures low distortion through the critical midrange area.

The 11.1 cutaway above, shows the curved, multi-layered cabinet walls, the flared red tube feeding the slot-loaded distributed port which exits at the base, loaded by a slot between cabinet and plinth and the internal bracing and damping material.

The slot loaded base exiting port provides a neat and elegant finish to the back of the speaker.

*We will have cutaway models available for you as POS and will send out on request along with your orders*
